

## PRIMUS DEDICATED HOSTING

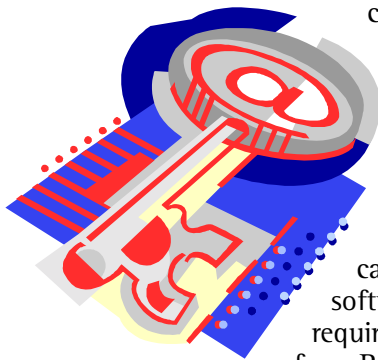

*Create your global presence on the Web for a minimal cost.*

For your customers with high-volume Web business who require high-speed access to mission-critical Internet services – or for your customers that supervise sites which demand specific custom programming – an ideal solution is **Primus Managed Dedicated Hosting**.

With a Primus Managed Dedicated Server plan:

- ◆ you lease a server from Primus
- ◆ you are the sole user of that server, and
- ◆ you get a direct Internet connection through Primus' global ATM + IP network.

Primus manages the hardware and performs system administration of the operating system, the server, FTP and mail daemons, so customers can spend more time running their business, and less time worrying about their server.

And since your customers will have root access, they can install any additional software you they need, without requiring permission or assistance from Primus.

### Primus Managed Dedicated Hosting offers:

- ◆ **Monitoring.** Primus monitors your customers' servers 24x7 to ensure proper operation and accessibility of the Web port.
- ◆ **Versatility.** Primus offers multiple server configurations with several options for operating systems, processor speed, RAM and hard-drive capacity.
- ◆ **Reliability.** Your customers connect through Primus' high-capacity, state-of-the-art ATM + IP network, backed up by Primus' 24x7 technical support team.

### Service Plans

Primus can build a Managed Dedicated Server plan to the exact specifications your customers need and expect:

- ◆ Burstable bandwidth
- ◆ Port (10 or 100 Mbps)
- ◆ Various CPU options
- ◆ RAM
- ◆ Operating Systems (UNIX, Linux, Windows NT and Windows 2000)
- ◆ Hard drives
- ◆ RAID
- ◆ Redundant power options
- ◆ Back-up solutions
- ◆ Web reporting

### Why Primus Is More Than Just Talk

Primus has built the next-generation application infrastructure to support business-critical Internet and e-commerce applications.

Primus' end-to-end service-delivery capabilities are centered on the **Primus Global Application-Intelligent Network (GAIN)**.

The Primus GAIN combines the Primus Global ATM + IP network, application centers, application accelerators, application management capabilities and application services into a **cohesive, globally enhanced application delivery platform**.

### Primus is:

- ◆ Integrated total service provider with more than \$1.2B in annualized revenue and over two million customers
- ◆ Facilities-based provider with assets on four continents
- ◆ Global carrier with ownership interests in more than 25 fiber-optic cable systems
